## Where's Germ to Make Phone of Fence Wire

Washington, April 27.—Telephone, telegraph and cable communication methods may be revolutionized as a result of experiments conducted by the army signal corps and described today before the National Academy of Sciences by Major General George A. Squier, chief of the corps.

Explaining how the army had obtained well high perfect results both in telegraphing and telephoning over bare wires laid in the water and on and under the ground, General Squier predicted that the expensive heavy insulated land and submarine cables now in use would be replaced by single bare wires over which a number of telephone and telegraph messages would be sent at the same time.

General Squier told the scientists that both telegraph and telephone communication were established recently between Fort Washington, Md., and Fort Hunt, Va., distant three quarters of a mile on opposite sides of the Potomac river, as well as between Fort Detrick and Fort Belvoir, Va., distant one and one half miles.

Had Germ in 1910  
While the germ of the present idea was noted by General Squier in 1910, it was not until the United States entered the war that the necessity for rapid development came, as facilities for manufacturing insulated wire were inadequate.

## Red Revolt Prevails in Jugo Slavia

(Bulletin)  
London, April 27.—A bolshevik revolution has broken out in Jugo Slavia, a Central News dispatch from Rome, quoting Trieste advices to the Messaggero of that city.

Machine guns have been brought into the action in Belgrade where hundreds are said to have been slain, it is said, while fatal riots have occurred at Ljubljana and Agrain.

Official radio broadcasts here are not alarmed over the reports of revolutionary troubles in that country and declare diplomatic dispatches from Belgrade place no emphasis on anything as the impending Italy-Serbian negotiations.

The principal primary fight was that between the president General Leonard Wood and Senator Warren G. Harding, "Ohio's favorite son" for the republican presidential endorsement.

Gov. James M. Cox is unopposed for the presidential endorsement on the democratic ticket and all delegates are pledged to him.

Forty three candidates are pledged to support General Wood, while 48 are pledged for Senator Harding.

Republican voters had the choice today of expressing preference for William Grant Wood, of New York or Elwood Hamilton of Hammond, Indiana, for vice president. There were no candidates for vice president of the democratic ticket.

Des Moines, Ia., April 27.—The law which created the Kansas court of industrial relations was put to a test in the Kansas judicial machinery today.

Opponents of the law centered around Alexander Howat, chief of the Kansas union miners, this morning attacked the law as unconstitutional when it substituted a hearing in the case of a mine strike to prevent the calling of a mine strike before Judge Andrew J. Curran in the Crawford county district court.

On March 20 Judge Curran granted an order restraining Howat and other union officials from calling a strike. The following week Howat and other officials ignored subpoenas to appear as witnesses before the industrial court.

As a result Judge Curran found them guilty of contempt and sent Howat and three other officials to jail. After a week in jail the officials gave bond and now are at liberty pending an appeal to the supreme court.

The Kansas miners walked out when Howat went to jail and the period from April 10 to the present has been practically nothing. Yesterday four fifths of the mine were working.

Fewer mines are working today.

The insurgents indicated no disposition today to yield.

## BOLSHEVIST FRIEND IS CHARGED OFFICER OF IMMIGRATION

CHARGES MADE THAT OFFICIAL CANCELLED ORDERS FOR DEPORTATION.

Washington, April 27.—Charges that Louis F. Post, assistant secretary of labor, had violated the law "in behalf of aliens who have contempt for this government and who are trying to overthrow it" were made before the house rules committee today by Chairman Johnson of the house immigration committee.

The first witness at the investigation into Mr. Post's conduct in handling deportation proceedings against radical aliens. He was followed by Representative Hoch of Kansas, who charged Mr. Post with the possible impeachment of the assistant secretary, is before the committee.

Post Cancels Deportations.  
Chairman Johnson presented a report of committee investigators prepared by W. A. Blackwood, Seattle, which reviewed many reports of deportation proceedings in which Mr. Post was said to have cancelled deportations recommended by immigration inspectors and the immigration bureau.

The report, according to Mr. Johnson, showed the assistant secretary followed for a time the looking for "change of heart" and ordered in the communist party was ground for deportation, but that he later "changed his mind" and ordered man communists freed by cancelling the deportation warrants.

Handled 100 Cases per Day.  
"He handled 100 cases per day," declared Johnson, "to be sent him at the rate of 10 per day and still later at the rate of 100 per day. These cases were handled by Mr. Post, the commissioner general of immigration and the law clerks of his bureau and without having received his signature, and without having been cancelled by Assistant Secretary Post."

Chairman Johnson declared "the public is not seeing red without a reason."

"It is seeing its laws violated by public officials," he declared, "in behalf of aliens who have contempt for this government and who are in league with similar revolutionists throughout the world."

Representative Hoch declared his resolution did not involve any "political or partisan consideration," but he added that "there should be a balance between the alien and the commissioner general of immigration and the law clerks of his bureau and without having received his signature, and without having been cancelled by Assistant Secretary Post."

## The DIARY OF AN ENGAGED GIRL

WHEN WE HAVE "WORDS," Jack and I have had a word. We are very much like the ordinary run of mortals and engaged couples after all. However, I refuse to let my individuality be swamped without a murmur right from the start.

We went to dine at the apartment of some of his best friends yesterday. People totally different from the Slouans, a most conventional couple who live up on the drive and keep up a complicated establishment, such as I dislike.

Mr. and Mrs. James are plain enough young people who are absorbed in themselves, their baby and just enough of the outside world to keep them from being absolute bore. Jack seemed to enjoy his visit there, but I was uncomfortable. It was all too much like home. Mrs. James is a small, neat young woman, with one of those satiny skins that remind you of an old ad. for "A skin you love to touch," a calm exterior and no interest whatsoever in art or music. I can forgive the former more than the latter.

We sat through a formal though excellent dinner and then Mr. James smoked and discussed their business affairs until I positively blushed for them both.

Jack and I went to the theatre. That is to say, she sat and explained the intricacies of housekeeping and baby raising till my head went round. Of course I have to be an exemplary wife and mother, but I do maintain that there are more things to live for in this delightful world than that. Perhaps I am too modern for my own happiness.

Young mothers are apt to be so superior. They seem to think that through their own marriage they suddenly become the elite of the earth and that no other human being is quite so truly human and perfect as they, if you know what I mean?

They are also irritatingly patronizing, without realizing it at all. I touched on various subjects outside of these pet ones of hers, but invariably she managed to wave them aside quickly as though all others were after all, minor matters to her. We were most polite, but that's all.

After we left Jack turned to me and told me that their home was his idea of a perfect paradise. I sniffed.

Then we went to it hammer and tongs!

He got quite pettish as I drew my picture of a home and paradise for him, and once he smiled in an aggravating way and informed me that I had a lot of romantic ideas in my pretty head which time and taste would eradicate. Can you beat that?

I explained to him right then and there that I should expect my home to reflect my personality somewhat as well as be "perfect." He shrugged and said the I was welcome to have it reflect almost anything as long as the reflections did not interfere with his ideas of comfort and happiness.

Nature had after that, had words. I may add that neither of us came out victor.

(To be continued.)

## Heart and Home Problems

BY ELIZABETH THOMPSON

Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: For several months I have been going with a man who came the nearest to being ideal of any one I have ever met. I do not mean he was perfect. He had faults, but I loved him anyway because in big ways he was so good and kind. I saw him two or three times every week and I learned to depend upon him a great deal.

Now he has been called out of town to work. I miss him so much that sometimes I think I will go crazy from loneliness. He liked me, too, but he could not have cared as much as I did or he would have said something before he went away.

Don't you think that girls as well as men ought to have the privilege of saying when they are in love and even proposing? BEATRICE B.

Considering the nature of both man and women, it seems to me that it is just as well to leave the act of proposing to the man. If he loves the girl enough to marry her he will say so, and if he does not love her he will care all the less if he learns she is seeking him.

Perhaps this will teach the man how much you meant to him and he will come back. Do not wait for this, however. Try to be happy with what is left in life for you to enjoy. It is always a mistake to look backward and let the beauties of the present pass unnoticed.

Dear Mrs. Thompson: I am a married man without children and recently I have had a young girl, 16 years old. While here she received quite a good deal of attention from the boys about her own age. This young lady allowed these boys to stay until 11 and after 11 o'clock at night.

Do you think a girl of 16 is old enough to have company at night? I think it is all right for children to be allowed to see each other, but I think it is perfectly disgusting to see girls that age having engagements with young men at night.

I am well aware of the fact that girls of that age are receiving young men in their homes with the permission of their parents, but this does not in any way seem the proper thing. Please give your opinion.

YOURS VERY TRULY.

I agree with you that a girl of 16 is too young to receive callers at night or to go places with young men. If the boys in the neighbor-

hood drop in and stay until 8:30 or 9 o'clock that is a different matter.

A 16-year-old girl needs her evenings for study and her nights for sleep. If she stays up late at night she matures faster and by the time she is old enough to enjoy young men she is faded and old for her age.

Dear Mrs. Thompson: I am a young man of 28. I was married and lost my wife last year. I miss her, for I loved her dearly, and I can't rest because of thinking of her. A man never knows how much a woman means until after she is gone.

All I do is to wander from place to place. I lost my wife and two children and have two children left. It seems to me as if no girl wants a man with children.

Many men with children marry again. Take more interest in your work so that you will make a good living and can offer a girl some chance for happiness more than caring for two children. It is not a pleasant prospect to care for some one else's children unless there is enough money to do so comfortably.

If you have failed to find a second wife it is probably because you have not courted her right. Take her places and do not expect her to be happy merely with calls from you. It is foolish to give up hope, because you can find a girl who will be glad to marry you.

## RAIN PUTS CRIMP IN H. S. BASEBALL

Junior-Senior Game Put Off Until Tomorrow Afternoon.

DuPont Engineering and Samson Tractor, co-workers in the construction and running of the huge plant on Industrial avenue, are slowly lining up material for an inter-departmental and factory ball league, according to the indications. Best material so far appears to be found in DuPont. With a team of the older men, made up of heads of departments and their lieutenants, the engineering company expects to have a collection of fast ball tossers on the diamond this summer. The squad has been practicing daily for several weeks. Manager R. L. McKee, who was a catcher for the Curriers Point (N. J.) team of the Post league, has uncovered some promising material.

Have Ex-File Three Men Several ex-big time players appear in the lineup. Eddie Yost, formerly of the Canadian league, will appear at center field. The hurling staff to date consists of Thero, a Vanderbilt star; Al Graubart, a veteran who will spend much of the time coaching the boys; and H. I. George. Another crack is J. W. Cornell, an old timer at the game. Harry Nelson of Penna state will appear at short; McGuire of Vanderbilt in the infield.

## "MRS. DEMPSEY WAS NOT LEGALLY MARRIED TO JACK"—JUSTICE DEPT.

San Francisco, April 27.—Evidence indicating that the marriage of Maxine Wayne Dempsey, heavy weight champion of the world, to a woman named in October 1916 was in violation of the Utah divorce laws and therefore invalid, was made public by the bureau of investigation today by the department of justice here today.

## Have Certified Document

The former Mrs. Dempsey was a prominent witness in the federal grand jury investigation which resulted in the indictment of Dempsey and Jack Kearney, his manager, on a charge of draft evasion.

The officials announced they had certified documents to show that Mrs. Dempsey married Dempsey thirteen days after she secured an interlocutory decree from George Glasshoff, a brakeman, in Salt Lake City, Sept. 20.

Utah law directs that no wedding can take place until at least six months after such decree is granted.

## CHI TEAMS IDLE; DODGERS HOLD FIRST

Rain fell at Chicago and Cleveland yesterday and neither of the Windy city ball clubs got a chance to slug the leather ball. The Pirates will probably try it again today at Chi; the White Sox are scheduled to meet the Indians this p. m.—if it does not spit.

## NATIONAL LEAGUE

The Superbas are keeping up their year-in-and-year-out stunt. They are playing great ball and leading the league. But they probably will be down in second division next week. Yesterday Rube Marquardt trimmed the Giants 4-2 in the first inning. The Manhattan bunch made two in the opening frame but the Dodgers came back in the next half. Knocking Rixey off the slab early in the game, and his successor, Bolls, showing wildness, the Braves smashed the Phillies for a 10 to 3 victory yesterday.

## AMERICAN LEAGUE

With the bases full in the ninth, two out and New York needing one run to tie, Catcher Garrity—le of Beloit Fairies fame—threw to the outfield trying to catch Ping Bodie. Bodie, who had been in the lead, was hurt—napping, but Meusel was on the job and stole home. Base on balls to Peckinpaugh again filled the bases and Bodie scored the winning run when O'Neill fumbled Pipp's grounder.

## CLEANING THE JUNGLES

Benjamin Franklin once incautiously remarked that teaching a young man to shave was better than giving him a purse full of gold. Teaching him not to, the inventor of the safety razor discovered, was worth still more.

As we reached for the adhesive plaster this morning after our roommate had opened the door upon which our shaving mirror is affixed, we were moved to consider how business genius had thrived in America since Benjamin Franklin's day. Instead of being able to sell a man a razor—oh yes, we remember the man who had seven, each labelled for a day in the week, but they were the exceptions—after selling a man one old-fashioned razor the commercial transactions ended. Now it is almost worth while to present a youngster with a safety razor for then you've got him nailed down as a perpetual blade customer.

Remember watching the skipper of the tug calmly shaving on board when the bay was doing a perpetual

BUILT FOR COMFORT

Some day I swear, I'm going to quit. Burn every bridge behind me. And with one blanket, staff and kit. Depart where none can find me.

I'll seek some spot beyond the ken Of clouded skies and blurry. Removed from taxis, typists, men, Who always have to hurry.

I'll share the sparrows' lot and thus kind nature will support us. And, shunning frosts, fumes and fuss I'll emulate the tortoise.

I'll stroll through glen and sunny dell. Best mid the rippling clover. And when it rains my "one-man" shell Will shield me till it's over.

And when my gentle journey ends, Through summer's sun or winter's, I'll wait my rabbit-footed friends: Who wore their souls to splinters.

A child in the third grade can prove four quarters are worth a dollar, says ex-Sgt. SOI, but a grown man can't prove that a dollar is worth more than twenty-five cents in a grocery store.

ELIOT OF BROOKLYN, with an average of .667, tops the National league batters. He made his mark in three games, getting four hits in six times at bat. 7. Wheat, a team mate, however, is hitting .326 for five games, he is credited with 19 hits in 18 times at bat. Housh, Cincinnati, who won the batting honors last season, is batting .222. This average was attained in five games, in which he was at bat 18 times and made 4 hits.

## M. E. DANCING BAN MAY BE MODIFIED

Des Moines Conference to Consider Changing Mandatory Act to Advice.

Syracuse, N. Y., April 27.—The Rev. Dr. Edmund M. Mills, acting secretary for the general conference of the Methodist Episcopal church, which opens Saturday at Des Moines, Ia., stated last night that the conference probably would revise the ban on amusements, changing it from a mandatory act in the book of discipline to a word of advice. Memorials submitted from conferences all over the country show that one-third of the preachers want to eliminate all reference to dancing, theaters and card playing.

Proposed Elimination.  
In view of the fact that the preachers do not put men and women on trial for these amusements, Dr. Mills will move the elimination of the following words in that part of the book of discipline dealing with the trial of a member for imprudent conduct:

"Dancing, playing at games of chance, attending theaters, horse races, circuses, dancing parties, patronizing dancing schools, or taking part in such other amusements as are obviously of misleading and questionable moral tendency."

For such offense the law calls for first, reproof by pastors; secondly, reproof by pastor and class leader of "disorderly" members of the church; and for the third offense, the accused shall be brought to trial.

Substitutes "Advice."  
After striking out the words referred to, Dr. Mills would have a star placed at this point dealing with trials, making it compulsory for the ministers to read the chapter on "amusements" under the head of "advice." The paragraph covers the situation in some detail and says:

"We affectionately admonish all our people to make their amusements the subject of careful thought and frequent prayer, to study the subject of amusements in the light of their tendencies, and to be scrupulously careful in this matter to set no injurious example. We advise and beseech every member of the church absolutely to avoid the taking of such diversions as cannot be used in the name of the Lord Jesus."

Laymen Barred in Annual Session  
In the matter of laymen being seated in the annual conference the memorials show them to be defeated by 500 votes. The laymen carried the measure, 10 to 1, but were defeated by the ministers.

## FARM BOARD HAS PROGRAM OF WORK

To plan a program of work for the recently formed Rock County Agricultural board, a meeting of the members was held with R. P. Glasco, county agent, at his office at the court house this morning. K. L. Hatch, assistant director of agriculture at the University of Wisconsin, and L. F. Graber, supervisor of county agents for the state, were present.

The board members on hand were: George W. Hull, chairman, O. C. Antisdal, C. O. Onsgaard, D. A. McCarthy and Robert Snyder.

## CITY JOINS RANKS OF 'CLEAN-UP' CREW

Municipal Teams Will Visit Every Ward Next Week In Big Campaign.

Extensive plans involving use of city teams, services of school children, and the local health department were formulated at a "clean-up" meeting held at the Chamber of Commerce last evening. The personnel included an alderman from each ward, a woman from each ward, the superintendent of schools, president of the local chapter of the Red Cross and president of the city Federation of Women.

Judge Mfield presided and named the following women as ward chairmen: First, Mrs. E. E. Buckingham; second, Mrs. Frances Grant; third, Miss Gertrude Cobb; fourth, Miss Joanna Hayes; and fifth, Mrs. T. P. Burns.

A meeting of this executive board was held at the Chamber of Commerce at two o'clock today when an aggressive plan was worked out and helpers named for the different departments of work.

A publicity committee consisting of H. H. Bliss, Miss Mary Mout and Harry Garbutt also met to outline ways of getting information to the public, and arousing interest in clean-up week which continues from May 3 to May 8. Posters, advertising and, perhaps a moving picture film, were suggested as means of arousing interest in the movement.

Aid of the schools was proffered by Supt. H. H. Faust. Children will help in locating bad spots in back yards, and alleys. They are to be asked to be on the look-out and report to a teacher in each building who will be named by the ward chairman.

Alderman J. J. Dulin offered the use of four city teams, in hauling away rubbish placed out at the curb. This does not include ashes but they will also be carried away, if the owner pays for the same. Those present at the meeting last evening, besides the ward chairmen were: Judge Chas. Mfield, Mr. and Mrs. H. H. Faust, Harry Garbutt, Ira Wortendyke, Ald. W. W. Menzies, Ald. J. J. Dulin, Ald. George Traver, J. Jensen, and Mrs. Walter Helms.

## FOUR VICTIMS OF CRASH IMPROVING

Saturday's automobile-train accident victims today are reported to be improving and suffering from no more injuries than those first disclosed at Mercy hospital after their miraculous escape from death when a Milwaukee road passenger train struck their sedan and bowled it along ahead like a log, near Hanover.

Miss Clara Weber is still at the hospital. Her face, head and neck were terribly cut. She was the most seriously injured. Miss Esther Camp-ton, hospital patient at the time of the accident, is reported to be suffering no serious effects of her original illness.

Henry M. Weber Jr., and Miss

Carolyne Weber, are able to be about although much bruised and stiffened as the result of their experience.

## CHILDREN PLAY WITH DYNAMITE, NONE HURT

[BY ASSOCIATED PRESS.]

Grand Rapids, Wis., April 27.—Injury or death to pupils of the Lowell grade school of this city was probably averted by the discovery of 29 of the first and second graders playing with dynamite caps. The father of a little girl discovered her playing with one of the explosives at home, and after finding that she had been given it at school by a friend, he immediately notified Supt. E. O. Doudna, who made a canvass the next morning and found that 27 of the

pupils were in possession of the caps. Many of them had been bitten by the children, but luckily without fatal results. The caps were said to have been found by a little girl, who distributed them to all her playmates.

# A Magnificent Exhibit of ORIENTAL RUGS

This is a rare opportunity for the prospective Rug buyer. It will save you money on your actual investment, besides the expense of a trip to Chicago or New York.

This collection is the result of many years of pains taking effort on the part of some of our most prominent connoisseurs. It is one of the finest of the large collections ever shown in this part of the country.

The unsettled conditions throughout Asia Minor and Turkey at the close of hostilities made it possible to get this wonderful collection out of those countries. Since then the restrictions have been so rigid that to secure a collection of such fine pieces it would necessitate a tremendous expenditure of money. It has been our good fortune to secure the entire lot and we are offering these rugs at prices based on cost to us, regardless of the present market.

We will open the Chicago Store about June 1st, remember the address, 302 N. Michigan Blvd. This high class shop will be given over exclusively to Oriental Rugs and Imported Floor Coverings and we are saving no expense to make it one of the show places of Chicago in the West.

The most interesting pieces are those brought to this country by the well known collector, Persinzi (a Bulgarian), who was one of the first to leave Turkey after the war.
